Dear Member,

The latest edition of this Newsletter comes at an exciting time for the Biogas industry in India. COP22 already brought "A Climate of Hope" to ensure the seriousness to save our planet. iba is also participating in "Fuels of the Future" congress in Berlin, wherein we are also looking forward to have many more participants from India. We are coming up with several exciting packages involving training tours, workshops and study programs in near future. For more updates, please stay glued.

If at any time you wish to unsubscribe, please use the unsubscribe link at the bottom of this newsletter and subsequent issues.

The Association is coming up with new Biogas magazine

Indian Biogas Association (iba) is spreading awareness of bio-energy and sharing experiences through newsletters. After successfully publishing five editions of newsletters, we are now going to launch a **Biogas magazine**. As iba's sole motive is to promote biogas in India, so we want to provide all biogas related information including latest important developments in one magazine to our valued readers. This magazine is expected to be published by the end of December 2016.
